EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

Claims 8 and 9 have been canceled.

End of Amendment.

3. This application is in condition for allowance except for the presence of claims 8 and 9 directed to a non-elected invention. The election was made without traverse.*

Accordingly, claims 8 and 9 been canceled as indicated in the Examiner's Amendment above.

REASONS FOR ALLOWANCE

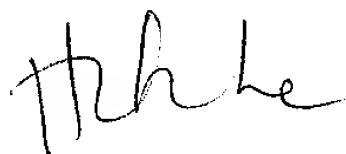

4. The following is an examiner's statement of reasons for allowance: None of the prior art references of record, singly or in combination, teach or suggest rare earth hydroxide or neodymium hydroxide in particular, having crystallite diameter of less than 40 nm and containing low impurity of chlorine and nitrate ions as claimed. The closest reference is the US Patent 4,758,412 to Fabre et al ("Fabre") which teaches a method of making rare earth hydroxides from phosphate ores. The resulting rare earth hydroxides have no impurity of

nitrate or chlorine ions because the process taught by Fabre involves none of the salts containing these ions. However, the formation of the rare earth hydroxides is by precipitation (a wet-process method). Thus, the crystallites as the primary particles forming the rare earth hydroxide particles have irregular configurations such that their particle diameter cannot be determined by the X-ray diffractometric method as required in the instant claims.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Other references are cited as art of interest.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 703-308-2415. The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Friday.

* Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
